Ismail Jeylani

Columbus, OH | ismailj2800@gmail.com | github.com/ismailcodes17

First-year computer science student looking for a software internship. I build small web apps with Python and React, and I store data in Postgres.

Education

Columbus State Community College

Computer Science, Columbus, OH

Charles School at Ohio Dominican University

High school diploma

Projects

Game Flix

- Python and FastAPI site for Steam's most-played games, a climbing list, and search.
- Postgres stores saved games and notes. The site is live on Vercel.

PokeParty

- React site and Python API for building a Pokemon team of up to six, saved in Postgres.
- Modeled a saved team in Python classes: a Team holds up to six TeamMember objects, stored in Postgres.

NASA Close Calls

- Dashboard for NASA's astronomy picture of the day and near-Earth asteroids, with saved favorites.

Skills

- Python, object-oriented programming, FastAPI, HTML, CSS, React
- PostgreSQL, Git, REST APIs

Experience

Library Volunteer Intern, Columbus, OH, 2025

- Helped visitors, followed a schedule, and finished assigned tasks with the staff.
