Ismail Jeylani

Columbus, OH | ismailj2800@gmail.com | github.com/ismailcodes17

First-year computer science student looking for a software internship. I build small web apps with Python and React, and I store data in Postgres.

Education

Columbus State Community College

Computer Science, Columbus, OH

Charles School at Ohio Dominican University

High school diploma

Projects

Game Flix | Oct 2026

- Ranks Steam's 40 most-played games and a climbing list from that same chart, with search and saved games in Postgres.
- Live: https://gameflix-fawn.vercel.app
- Code: https://github.com/ismailcodes17/gameflix

PokeParty | Aug 2026 - Oct 2026

- Search across 1,300+ Pokemon in PokeAPI and save a team of 6. A Team class holds up to six TeamMember objects in Postgres.
- Live: https://poke-party.vercel.app
- Code: https://github.com/ismailcodes17/POKE-PARTY

NASA Close Calls | Sep 2026 - Oct 2026

- Pulls NASA's 7-day near-Earth asteroid feed and sorts each object by distance, speed, and size, plus the astronomy picture of the day. Favorites stay in Postgres.
- Live: https://nasa-space-asteriod-close-calls.vercel.app
- Code: https://github.com/ismailcodes17/nasa-space-asteriod-close-calls

Skills

- Python, object-oriented programming, FastAPI, HTML, CSS, React
- PostgreSQL, Git, REST APIs

Experience

Library Volunteer Intern, Columbus, OH, 2025

- Shelved and organized materials so staff could find them, and kept the shelves in order.
- Answered visitor questions, gave directions, and finished each shift's assigned tasks on schedule.
